Subject: Willamette River Clean-up

Dear Administrator Gina McCarthy,

Leaving the Willamette River polluted is irresponsible and will have many long-term consequences for all of the people and animal residents in Oregon. Please hold the industrial polluters accountable for the toxic waste that they have dumped into this river. They will not voluntarily do the responsible thing- but you have the necessary leverage to ensure that the clean-up is done right. Please don't leave the river polluted with lead and other industrial waste. Oregon is a beautiful place- full of wildlife that has no choice on drinking purified bottled water.

Thank you.

Sincerely,

(b) (6)

Portland, OR 97229
